Al and his pal never work- they're usually too busy motoring in their pet flivver. They pass some social climbers in a luxurious limousine and Al is looked upon favorably by the daughter but an accident makes him stop.

A tire accident makes him stop and his sweetie escapes. Pumping up the tire an explosion occurs and Al is hurled along, bowling over a cop and committing other damage.

When they return they discover a baby in the machine which a kidnapper leaves. The boys dress it- the little girl in a suit of pajamas. Later, a real child's suit is purchased and they take her home to feed her. She refuses to eat dog biscuits or greasy steaks and they dash out to get some milk.

When they return, they discover that the child is missing. Finding her on a plank overhanging a cliff, they succeed in rescuing her only to have her carried off by a handful of balloons which she snatches from a vendor.

The boys pursue and after many hair-raising adventures she drops into an auto- her very own parents in the back seat. They give a \$5,000 reward to Al and his pal but the wind blows the money out of al's hands.
